# MARS IS GETTING CLOSE!

**On 27 August 2003 Mars  
will be at its closest to  
the Earth for 60,000 years**

Leaflet sponsored by the Particle Physics and Astronomy Research Council (PPARC) and the Faulkes Telescope Project—the Universe in your Classroom [www.faulkes-telescope.com](http://www.faulkes-telescope.com)

Designed by the Society for Popular Astronomy
